

21-12-2015 WORMER

Dear all,

With this letter I will you inform that I after 25 years working for the Naviga I go out of the Naviga.

The reason for it is they will have that I the finance agreement what I have made with the organization from Jawor must change. Well I will not do that.

In the section FSR we take for the section money € 5,00 and not more, for the other classes in the Naviga they vote one couple of years ago that it must be for the section money 30% even the section FSR must do this. Well I will not do this, my opinion is that the organizer need more money for today organize the competitions.

One couple of weeks ago after the General Assembly from November this year a new proposal about the section money. Now they will take section money 10% for the European Championships.

But Naviga will do it now on this way, for the European Championship the section must take 10% section money and Naviga give € 1000,00 to the organizer and pay the travel cost for the section-leader. The organization can buy the Naviga medals or make the medals self.

For the World-Championship, section money 30% and Naviga give € 2000,00 to the organization and pay the travel cost from the section-leader.

Those proposals are for me the right hand give money and the left hand takes more back.

In the past the section pay the travel from the section-leader and pay the medals, now the organizer can buy the Naviga medals.

The money agreement what I have make with the organization for the European and World Championship 2016-2017 in Görlitz Augustus 2015. And later in Jawor speak about accommodation and the final points.

European Championship, not pay the section money, medals by there own.

World Championship pay section money € 5,00 Naviga give € 2000,00 medals by there own.

Best regards for you all

Peter
